

# Cut down on manual labor, wet seals, and dreaded downtime.

There is nothing worse than a batch of leakers. Whether caused by wet seals or inaccurate portioning, mispackaged product can set your productivity back hours. You need to increase your accuracy and reduce your reliance on manual labor at this key point in your line.

## Reduce leakers and increase throughput with the Saddlepack Depositor with Clean In Place (CIP) system.

### Up to 20 packages per minute

Your line can run faster with less manual intervention and downtime. Fast and accurate depositing keeps seals dry before entering the thermoformer.

### Easy maintenance, operation, and washdown

The simple and ergonomic operation means minimal cost of ownership. The clean-in-place design makes it efficient to washdown and start running again.

### Universal equipment integration

Custom design and installation is compatible with any existing facility thermoformer, regardless of OEM equipment brand.

## Homegrown, down-to-earth innovation that improves the way your plant works.

### Tailored solutions for your needs

We design equipment specifically for your unique challenges, ensuring a perfect fit to address space and operation issues.

### Turn-key installation

We manage the entire installation process, taking the burden off your plant. Our comprehensive approach minimizes downtime and disruption to make your life easier.

### Expert troubleshooting and integration

Count on us for in-plant troubleshooting and seamless integration, alleviating your worries about potential issues during and after the installation.

## Let's unpack the process.

1

### The Talk-Through

Give us an idea of how you utilize manual depositing processes so we know what kind of challenges you're up against.

2

### What We'd Do

We'll show you how implementing our depositor equipment can improve productivity and decrease downtime on your line.

3

### Start Depositing!

We'll work together to install your Saddlepack Depositor and implement new processes that increase your throughput.

Increase your productivity with the one-of-a-kind Saddlepack Depositor.
