

Automated Saddlepack Taper

Eliminate a common bottleneck on poultry processing lines with a fully automated taper that folds and secures packages of chicken for distribution. Compatible with most thermoformed packaging.

A Flexible Solution for Faster Taping.

The automated saddlepack taper is ruggedly built to withstand the rigors of poultry processing. With a focus on easy operation and maintenance, this equipment is fully washdown compliant.

Technical Specifications

| | |
|-------------------------|---|
| Package Handling: | Up to 20" wide and 24" long Any number of pouch configurations |
| Package Throughput: | 20 packages per minute without compression 17 packages per minute with compression |
| Electrical Requirement: | 480 VAC 3Ph 4A (15A breaker) |
| Airflow Rate: | 10 CFM at 70PSI |
| Tape Roll: | 48mm x 1500m, high tack tape |
| Enclosure: | NEMA 4X, IP69, full washdown ready |
| Equipment Footprint: | 55" x 52"x 99" (LxWxH) |

Package Compression

Squeezes the package with any desired pressure for neater presentation and easier boxing.

Accessible Interface

Large HMI monitor includes equipment manual, spare part inventory, integrated training videos, and data collection.

Built-in Bypass

Communicates with thermoformer to bypass packaging without product or upstream line issues.

We've put Decades of Innovation into Perfecting Poultry Packaging.

Built for Poultry Plants

Our packaging automation equipment was designed for the realities of poultry processing — from slippery product to washdown requirements. While other options adapt generic packaging equipment, we've built solutions that actually work in your plant.

Turnkey Installation

We manage the entire installation process, taking the burden off your plant. Our comprehensive approach provides a turnkey solution installed over a weekend to minimize downtime and disruption to make your life easier.

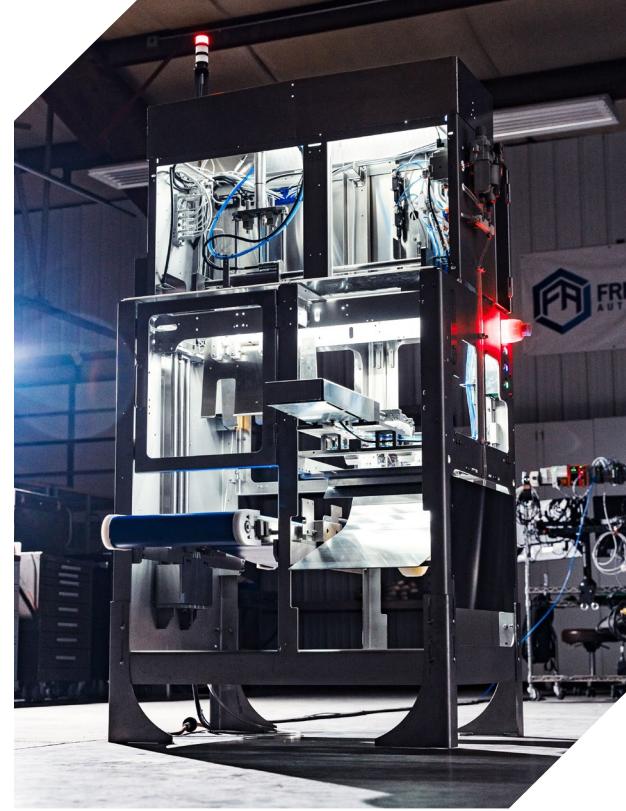

Our Engineers Install and Support

After installation, count on us for in-plant troubleshooting and seamless integration, alleviating your worries about potential issues. We're a long-term partner for any maintenance or parts, thanks to a complete inventory of necessary hardware on hand.

OEM-Agnostic

The automatic taper connects seamlessly with upstream and downstream machines. You don't need to redesign your line to get the benefits of taping automation.

Built in the Midwest.

Installed everywhere poultry is processed.

Lincoln Premium Poultry

Improve Throughput with Automated Poultry Package Taping.

Solve the complex and labor-intensive taping process with an automation solution that increases workforce efficiency and reduces downtime.
